Dear Fellow Entrepreneur,

Do you dream of achieving great success? Taking your business to the next level? Even making a million dollars? Do you dream of showing yourself, your kids, your family, your friends and the world that you can do it? Well, then this may be the group for you! You and I want success. What is success and how does it happen? In this group our belief is that success and wealth do not come from money. **Success and wealth come from behavior.** Having money isn't the backbone to creating success and wealth, behavior is. To take it a step further...it's not just about knowing and doing all the right things...it's also about avoiding the wrong things. It's about your choices, your beliefs, your determination and your mindset...and taking consistent action. We combine that with an experienced **Millionaire Mindset coach**, group support and The Law of Attraction. Change your behaviors and you change your life. Change your behaviors and create all the success and wealth you deserve!!

Many people know what they must do to achieve their dreams, but most don't do it. They lose their way. They lose focus or confidence. That's why we formed this group. We can support each other while learning from Marla and accomplishing our dreams and goals! Wherever you are starting from, our group, **The Million-Dollar Mindset**, is for all those who have this dream! Join Our group, **The Million-Dollar Mindset** so that we can work together and move toward all the wealth and success we all deserve!

Warm Regards,

Terrie Annechino

About This Group

Most millionaires didn't just wake up one day to see and enjoy a hefty amount of cash in their bank accounts. It took them time and energy, and even some failures, along the way to create their fortune. Being a millionaire is not about having all the good luck in the world; it's about your inner world, removing internal barriers and making good choices on your way there.

Anyone who feels that they did not learn **A Millionaire Mindset** at home (while growing-up) or at school or college, will learn the tools in this group. Once you have them and confidence you can apply it anywhere.

This class is designed for entrepreneurs who are already in business and in a growth mode. They already have a strong foundation and growth model in place. Now they want to start making their dreams come true. They dream of obtaining a BIG dream, such as a million dollars in annual revenues, or whatever is most important to them. This is the class where we learn and apply concepts and principals to dream big dreams and achieve big goals!

Time & Cost

Our class will cost \$89/month with a six month commitment to yourself and your peers. This includes (3) three one-hour sessions each month for 6 months.

We will start Tuesday, February 1st, 2011 at 7PM and run through July 2011. All classes will be recorded and sent to you so you may listen to them as often as you like. We will all participate on a telephone conference line, so you can take this class from the comfort of your own home.

the dreams of entrepreneurs

What We Learn and Can Expect

“THE MILLION DOLLAR MINDSET IS NOTHING WITHOUT ACTION”

Much of what we will review is about mindset, eliminating blocks to success, positioning, law of attraction, etc; but we will also discuss topics such as laying a million dollar foundation, steps we can take to achieve our goals, developing support, inspiration and motivation. We will discuss our biggest struggles and highly effective ways to overcome them and how to turn tap into your greatest inner resources.

PAPERWORK

You will receive an introductory questionnaire, some forms, and a survey at least one week prior to our six-month journey. You will return these to Marla via email.

GUESTS AND OTHER PROFESSIONALS

Perhaps there's a topic everyone needs some help with. We might have guest experts speaking on specific topics such as social media, marketing, accounting, virtual teams, etc

GOAL SETTING & A MILLIONAIRE MINDSET

Success has fascinated people ever since man began to walk on earth. But unfortunately most people do not really know what it means to them and have no clue how to achieve it. Defining what success means will lead you to a lifetime of accomplishments and achievements.

- Know the success principles and make them work for you.
- Literally change your life after seeing the main principles of making money.
- Dramatically change your mindset and start taking the right steps.
- Understand why most people set their goals in the wrong way and never achieve them.
- Use the laws of attraction and other universal principles to make a big difference

Top 20 Concepts that Successful People Share

When you ask successful people how they achieved their goals, the answers are varied as they are. There are some commonalities, and here is a list of what is most often shared:

1. **Clearly define exactly what your goal is & your timeframe to achieve this exact goal**
2. **Develop a written Millionaire plan**
3. **Develop a Millionaire mindset**
4. **Surround yourself with a team that believes in you.**
5. **Focus on your growth as a top daily priority**
6. **Get as many distribution channels as possible.**
Each one by itself may not be large, but if you have many it starts to add up.
7. **Be a master in your field of expertise.**
8. **Follow & Stick with Your Plan Be an unrelenting machine.** Brick walls are there to show you how bad you want something. Commit to your goals and do not waver from them a one bit regardless of what else is there.
9. **Put your intentions out into the universe and you can see amazing things happen . (LOA)**
10. **Be so good at what you do that others are inspired by you.**
11. **Get a coach** to keep you on track and be your endless cheerleader!
12. **Always keep your door/inbox open to others.** You never know who is going to walk through your door and contact you, or who they know. Serendipity is a beautiful thing. **Give yourself every opportunity you can.**
13. **Invest wisely.** Learn to **make your money work for you**
14. **Stick with it.** Don't give up too fast. Being broke or not making any money sucks and can often make you think nothing will ever work. Don't quit when you're down. If this was easy then everyone would be a millionaire.
15. **Surround yourself with smart people.** Successful people usually get there by surrounding them selves with likeminded people and help others do the same.
16. **Keep The Momentum Going.** Be consistent!
17. **While achieving your goals,** don't spend all of your money. Save, save, save and live below your means.
18. **Don't Get too Comfortable.** You will probably get comfortable somewhere before your goal. If you get comfortable you start getting off balance and having the hunger to move forward. Reward yourself , and live as simply as possible.
19. **Get professional advice** when you need it.
20. **Get a virtual assistant** who is as dedicated to your dreams as you are.
